Bath Fun Bubble Blower Instructions

Getting Started: Make sure the unit is turned on and there’s battery power in the unit and units are all dry. Check battery level on back of unit. Turn the power button to ON. Once the battery is low, replace the battery to avoid damage to the unit. When the battery is low, it will stop working properly and the unit will not blow bubbles on its own. Replace the battery when it needs to be replaced. The battery cover ensures the cover is securely tightened and avoids battery leakage.

To Use: There are two slots for bubbles in the bubble blower. Fill the bubble bath with the solution of choice. There is a button at the side of the unit that can be pressed to blow bubbles. The bubbles will come out of the holes in the unit, and the bubbles will be distributed evenly around the bath tub. The safe button is red. To turn the unit on, press the button. To turn the unit off, press and hold the button for 2 seconds. The unit will beep when the unit is turned on. The unit will beep and stop working when the unit is turned off.

Battery Notice: Do not mix old and new batteries. Overcharge the alkaline, standard (dead) battery. Do not recharge the alkaline, standard (dead) battery. Do not charge the alkaline, standard (dead) battery. Do not recharge the alkaline, standard (dead) battery. Do not charge the alkaline, standard (dead) battery. Do not charge the alkaline, standard (dead) battery.

WARNING: Do not exceed the maximum recommended number of bubbles for each use. Exceeding the maximum number of bubbles may result in skin irritation.
