

INSTRUCTION SHEET

35043 XG Soft Impact Corner Cushions

SHOULD BE FOLDED AND PLACED UNDER PRODUCT

XtraGuard™ - Soft Impact Corner Cushions Installation Instructions:

Read these instructions carefully before mounting & using the product. The child protective function of the product may be affected if you do not follow the instructions. Keep the instructions for future reference.

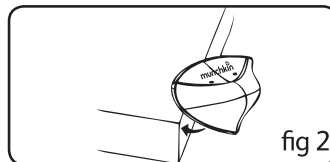

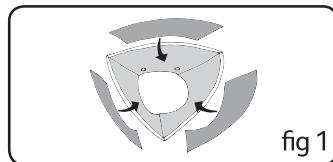

To Install:

1. Wash corner cushions in soapy water and dry before applying to furniture.
2. Clean the surfaces which the corner cushions are to be applied according to the appliance / furniture manufacturer's recommendations. All surfaces should be dry before attaching the corner cushion.
3. Taking the adhesive panels, note which surface they correspond to, peel off the back. Peel off the sheet carefully (adhesive is very tacky) and affix to the cushion. Fit as fig 1.
4. Remove the remaining protective covering from the adhesive panels. Firmly push the tip of the corner cushion when fitting to a corner, ensuring it is attached securely. Ensure Munchkin branded top flat panel is visible so you know it has been fitted correctly (fig 2). Once in place leave for 24 - 48 hrs for maximum adhesion.

To Remove: Pull cushion off corners, wipe off excess adhesive. Clean surface according to manufacturers instructions.

To Clean: Wipe with a clean damp cloth.

CAUTION: DO NOT cover the two small holes with the adhesive panels. This is not a toy. Do not allow children to play with it. Discard and replace at first sign of weakness or damage. Do not leave child unattended. Discard all packaging components before use.
